---

## SUMMARY

---

Experienced front-end developer with strong skills in HTML, CSS, JavaScript, React, Nextjs, and back-end technologies like Laravel, with expertise in analysis, development, implementation, and troubleshooting web applications, motivated team player. Seeking an opportunity to leverage my skills in a dynamic organization.

## WORK EXPERIENCE

---

### Freelance Software Developer

Self-Employed

June 2022 – Present

#### School Management System

- Developed a comprehensive school management system utilizing Laravel framework
- Implemented online exam handling for students, included automated grading, enabled student result checking and progress tracking
- Managed library operations, including catalog and book availability for each class
- Facilitated note and book distribution for various classes
- Established a communication platform for sharing general information with students and parents.

#### Booking System for Linos-Touch

- Developed and deployed a booking system using HTML/CSS, JavaScript, and PHP/MySQL
- Implemented a payment system using stripe
- Implemented an invoicing system enabling staff salary payment and reporting

#### E-commerce Website for Frima-Tech

- Developed a dynamic and responsive website using Next.js, enhancing user engagement and experience.
- Implemented a secure authentication system using NextAuth, ensuring robust user verification and data protection.
- Created and managed a comprehensive product catalog, allowing easy addition, update, and deletion of products.
- Developed an order management system, streamlining order tracking and processing for administrators and users.
- Integrated a payment system with Paystack, facilitating seamless and secure online transactions.

## Contract Software Trainer

Pure Access IT LTD - Abuja

October 2019 – February 2020

- Led an immersive program focused on teaching software development and core web technologies.
- Prepared and presented daily lectures on efficient solutions to web development processes.
- Collaborated with other instructors to teach and mentor trainees in web development, fostering a collaborative learning environment.
- Mentored junior developers in HTML/ CSS, JavaScript, and web application development.
- Analyzed software development processes and suggested alternative technologies to improve efficiency and outcomes.
